● WORK EXPERIENCE

01/11/2024 - CURRENT - MUNICH, GERMANY

RESEARCH ASSISTANTTHELMHOLTZ ZENTRUM MÜNCHEN

Designed, developed, and maintained a RAG application for internal use at the research center, enabling efficient access to domain-specific knowledge from web sources, internal documents, and knowledge graphs.

01/10/2025 - 13/03/2026 - MUNICH, GERMANY

DATA ENGINEER (INTERN)REPLY DE

Performed an energy-consumption analysis of major data engineering platforms (Spark, Kafka, Flink) and designed a data lake architecture using the most efficient components to reduce the system's overall energy footprint.

18/07/2022 - 10/04/2024 - GUAYAQUIL, ECUADOR

MACHINE LEARNING ENGINEERRAPPI

Develop and maintain microservices related to models that predict ETAs (Estimated Time of Arrivals) in all the cycle of an order in Rappi. Develop and maintain data pipelines to ensure the correct online training and validation of those models.

05/12/2020 - 31/05/2022 - GUAYAQUIL, ECUADOR

DEEP LEARNING ENGINEERTIENDAS INDUSTRIALES ASOCIADAS S.A. (TIA S.A.)

Developed a Deep Learning (DL) System that creates heatmaps using Video Surveillance Camera Systems. Developed a DL System that count the number of people in a retail store using Video Surveillance Camera Systems. Developed and design a Medical DL system, capable of infer the presence of both, Diabetic Retinopathy and Glaucoma, using Retinal Images of the patients' eyes.

01/06/2022 - 31/12/2023 - GUAYAQUIL, ECUADOR

UNIVERSITY RESEARCH ASSISTANTESCUELA SUPERIOR POLITÉCNICA DEL LITORAL

Develop and maintain research projects related to the areas of distributed systems and data engineering such as: trace analysis of Microsoft Azure functions, or the benchmarking of tools like Apache Spark, Presto and Amazon Athena.

05/09/2021 - 12/12/2021 - GUAYAQUIL, ECUADOR

DATA SCIENTISTESCUELA SUPERIOR POLITÉCNICA DEL LITORAL

Made an exploratory data analysis over Microsoft's Azure Functions Traces Dataset. Made a time series analysis including detecting trends, burstiness, and seasonality. Developed politics to reduce burstiness in the Dataset.

25/11/2018 - 02/12/2020 - GUAYAQUIL, ECUADOR

FULL STACK WEB DEVELOPERCRIPTEXT

Developed part of the API of Criptext, an encrypted email provider. Developed part of Criptext bob encryption service. Developed the administrator Web Application for Enterprise stakeholders. Also participate in the Electron based Desktop Application. DevOps at maintaining Criptext servers.

05/11/2019 - 21/02/2020 - GUAYAQUIL, ECUADOR

DATA SCIENTISTESCUELA SUPERIOR POLITÉCNICA DEL LITORAL

Developed a Convolutional Neural Net (CNN) model to automatically detect and segment White Matter Hyperintensities in the brain. The CNN model used demonstrated to be the state of the Art in this topic. Also developed a Desktop App to visualize the brain, and the lesions on it. All was branded by the name of Brainy.

04/09/2016 - 22/02/2019 - GUAYAQUIL, ECUADOR

UNIVERSITY RESEARCH ASSISTANT ESCUELA SUPERIOR POLITÉCNICA DEL LITORAL

Developed a key-value store database benchmark based in YCSB that could use real workloads and traces to analyze performance, latency and throughput on the operations of various Key-Value store Databases. Developed a cache replacement admission policy that could automatize its size partitions.

02/04/2018 - 10/11/2018 - GUAYAQUIL, ECUADOR

WEB DEVELOPER LACEA LAMES

Developed an Hybrid Mobile App to schedule, gave user information about bus routes, tourist attractions, and notificate users about sessions in LACEA LAMES (The Latin American and Caribbean Economic Association) 2018 Econometrics and Economics conference. Made an admin web application so that the organizers could manage the different conference issues. Made an API REST that could feed both web app and mobile app.

01/10/2017 - 18/02/2018 - GUAYAQUIL, ECUADOR

SOFTWARE DEVELOPER ESCUELA SUPERIOR POLITÉCNICA DEL LITORAL

Made an Android native application to monitor Bosque Protector Prosperina in ESPOL. Implemented a data streaming service communication between the App and a remote server. Developed an audio listening service that could register several inconveniences in Smartphone ubication.

04/09/2016 - 04/10/2017 - GUAYAQUIL, ECUADOR

WEB DEVELOPER PROCARE FOUNDATION

Made an API REST to feed a Desktop App to administrate the Procare foundation teachers, students, administratives, classes, and cellars. Also develop part of the Desktop App.
